EXPERIENCE

AI/ML Associate Intern – DESMOSLAB, Coimbatore, India (August 2025 – Present)

- Developed AI-powered applications by integrating Generative AI APIs for intelligent automation and enhanced user interactions.
- Built and maintained Flutter-based cross-platform mobile applications with backend API integration and AI-driven features.
- Contributed to end-to-end AI workflows, including data preparation, model development, evaluation, deployment, and performance monitoring.
- Developed AI assistant solutions using Large Language Models (LLMs), prompt engineering, and conversational AI techniques.

CORE QUALIFICATIONS

- **Programming Languages:** Python, SQL, HTML, CSS
- **Machine Learning & Data Science:** Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, PyTorch
- **Mobile Development:** Flutter (Android & Cross-Platform Applications)
- **Backend Development:** FastAPI, REST APIs
- **Version Control & Collaboration:** Git, GitHub, GitHub Desktop
- **AI Development Tools:** Gemini CLI, Claude AI, GitHub Copilot, Grok AI, Codex CLI
- **AI & Intelligent Applications:** LLMs, Prompt Engineering, AI Assistant Development, Conversational AI, AI API Integration
- **Development Tools:** VS Code, Jupyter Notebook, Google Colab, Figma, Canva
- **Soft Skills:** Empathetic listener, Cooperative Spirit, Event Planner (trips/events), Professionalism, Resilience
- **Linguistic Skills :** English ,Tamil, Hindi, German(Basic)

EDUCATION

Bachelor of Engineering in Computer Science & Engineering	(2022 – 2026) CGPA: 8.66 /10
SNS College of Technology, Coimbatore, Tamilnadu, India	
HSC	(2021 – 2022) Percentage: 84%
Dr. P.G.V Matric Higher Secondary School, Coimbatore, Tamilnadu, India	

PROJECT

LoanWise — Loan Approval Prediction System (https://github.com/thisisMUKUND11/Loan_Prediction)

Built a full-stack loan approval prediction system that estimates a borrower's approval likelihood from their financial profile in real time. Trained a scikit-learn Random Forest pipeline (imputation, scaling, and one-hot encoding) on a 4,200+ record dataset, achieving 97.3% accuracy and a 0.998 ROC-AUC on the held-out test set. Developed a FastAPI backend with JWT authentication, role-based access, and prediction history (search, filter, pagination) over an async SQLAlchemy database. Designed a cross-platform Flutter mobile app with a guided multi-step form that delivers instant predictions, risk levels, and personalized recommendations to improve approval odds.

Ardour AI (https://github.com/thisisMUKUND11/Ardour_AI)

Developed an AI-powered conversational chatbot using the Gemini API for intelligent and adaptive user interactions. Built a RESTful API server to integrate generative AI capabilities with the application backend. Implemented cloud-based storage for chat history to support scalable data management and efficient workflows. Designed and optimized the chatbot architecture to deliver seamless user experiences, improved response accuracy, and efficient conversational workflows.

ACHIEVEMENTS & PARTICIPATION

- | | |
|---|---|
| • Microsoft Azure AI Certification | • B.A. Hindi – Dakshin Bharat Hindi Prachar Sabha |
| • NPTEL Certification – Privacy and Security in Online Social Media | • IELTS – Overall Band Score: 6.5 |
| • Runner-Up, Idea Presentation (QUANIX '23') | • Coding Contest Finalist (CIT 2024) |
| • PrepInsta Data Science Certification | • Google AI Hackathon Participant |
| | • Regional-Level Basketball Player |
